The Digital Decision recognized as a TOP Consulting Firm

MissionCritical Communications Magazine Reveals TOP Consulting Firms

(July 2016) MissionCritical Communication Magazine recognized The Digital Decision as TOP Consultants in its July Edition.

MissionCritical Communications (MCC) dedicates its July issue to recognizing industry consultants and to better inform their readers about their consulting options. MCC states, *“Consulting firms are an important part of the mission-critical communications industry. Informed third party technical and governance advice is key for the complex technology projects our readers undertake.”*

The Digital Decision received a nomination based on its projects and competitive edge. [Click Here](#) and scroll to page 26 to see the article.

“It is an honor to be recognized by MissionCritical Communications (MCC). MCC’s steadfast journalism has resulted in raised awareness of our mission to improve PS communications nationally”, said Robert LeGrande, II, Founder and CEO of the Digital Decision

Pivotal Projects: Pennsylvania and Nevada State and Local Implementation Grant Programs (SLIGP), and Fairfax County, Virginia, public safety broadband wireless project

Competitive Edge: TDD Team members led the planning, design, deployment, operations and maintenance of the nation’s first two 700 MHz public safety broadband networks in Washington, D.C. and the National Capital Region (NCR). The company is Small Business Administration (SBA) (8a) certified and has several other state certifications. TDD’s experienced staff includes a former superintendent of the Ohio State Police, a former legal counsel at the FCC and a former vice president of Verizon’s public safety communications group.

About The Digital Decision

The Digital Decision was founded in 2007 with the mission of establishing true nationwide interoperable communications for our nation’s first responders. TDD led America’s first two public safety broadband network deployments, provided key testimony and technical expertise in support of the 2012 Middle Class Tax and job creation (FirstNet) legislation, and negotiated state-wide LTE governance and operational agreements for four states, and over 67 local jurisdictions. TDD also provided expert consultant services to the world’s largest commercial carriers and equipment manufacturers. These combined experiences are unmatched in the marketplace and enables TDD to provide unique, groundbreaking intelligence that best positions our state and local customers to make their public safety broadband communications decision.
